

LIFETIME SUPPORT PROGRAM

AUTHORIZED REPLACEMENTS FOR
ROCKWELL AUTOMATION/ALLEN-BRADLEY
F, H, N, S, W, 1326AB, & 1326AS SERIES

Elwood High Performance Motors maintains the only true drop-in replacements for Rockwell Automation/Allen-Bradley F, H, N, S, W, 1326AB & 1326AS Series servo motors. In addition, Elwood motors directly replace HSM (H-Series), FSM (F-Series) and NSM (N-Series) from Giddings and Lewis (G&L) Automation Control.

Elwood's legacy servo motors are authorized replacements by Rockwell Automation/Allen-Bradley through the Encompass Partner program. Elwood builds to original specifications using OEM components so that the motors drop-in without changes to motor data files, machine setups, tuning, cables, or mechanical components.

For *OEMS, machine builders, and end-users with a large installed base* Elwood offers its **LIFETIME SUPPORT PROGRAM**. For agreed upon model numbers, Elwood will maintain a working inventory of new and rebuilt motors to support the customer's on-going replacement needs.

LIFETIME SUPPORT PROGRAM: OUTLINE

- Working inventory of selected models for fast turn-around and reduced lead time
- Indefinite support (no planned obsolescence)
- OEM components (original factory specifications)
- Improved productivity (as-new performance)
- Full warranty
- Discounted prices

LIFETIME SUPPORT PROGRAM: DETAILS

- Working Inventory of Selected Models for Reduced Lead Time
Elwood maintains a working inventory of new motors, rebuilt replacement motors, and components for selected models to reduce turn-around to five business days or less. Elwood reserves the right to replace a motor in the **LIFETIME SUPPORT PROGRAM** with a new motor at the discounted program price.
- Indefinite Support
Elwood makes no plans to obsolete or retire motors in the lifetime support program. This helps customers extend the productive life of proven machinery.
- OEM Components, Original Factory Specifications
Starting with original engineering documentation, Elwood uses only original equipment components and original manufacturing techniques for building new and rebuilding legacy motors. Whether it is a new motor or a rebuild, each motor is tested to original factory specifications.
- Improved Productivity
Customers have confidence that machines equipped with Elwood motors will be more productive and see less down time than with replacements/rebuilds that don't utilize OEM components or manufacturing practices.
- Full Warranty
All motors in the **LIFETIME SUPPORT PROGRAM** receive the same warranty. Whether new or rebuilt, Elwood stands behind its motors with the same one-year warranty. For additional details refer to www.elwood.com/terms_conditions.html
- Price Discounts
Typical **LIFETIME SUPPORT PROGRAM** pricing is 60% of new motor pricing. Pricing and availability is always available at:
